## List of Collaborative Degree Programs between Chulalongkorn University and Its Partners

## Joint Degree Programs

Faculty/College	Degree Programs	Partner Universities
Faculty of Dentistry	Doctor of Philosophy in Orthodontics (International	Tokyo Medical and Dental University, Japan
	Program)	
Faculty of Medicine	Doctor of Philosophy in Biomedical Sciences and	School of Biomedical Sciences University of Liverpool, UK
	Biotechnology (International Program)	
Petroleum and Petrochemical	Master of Science in Petroleum and Energy	-Department of Chemical Engineering, University of Michigan,
College	Technology (International Program)	U.S.A.
		-School of Chemical, Biological and Materials Engineering,
		University of Oklahoma, U.S.A.
		-IFP School, France
	Master of Science in Petrochemical Technology	-Department of Chemical Engineering, University of Michigan,
	(International Program)	U.S.A.
		-School of Chemical, Biological and Materials Engineering,
		University of Oklahoma, U.S.A.
		-Department of Macromolecular Science and Engineering, Case
		Western Reserve University, U.S.A.
	Doctor of Philosophy in Petrochemical Technology	-Department of Chemical Engineering, University of Michigan,
	(International Program)	U.S.A.
		-School of Chemical, Biological and Materials Engineering,
		University of Oklahoma, U.S.A.
		-Department of Macromolecular Science and Engineering, Case

Faculty/College	Degree Programs	Partner Universities
		Western Reserve University, U.S.A.
	Master of Science in Polymer Science (International	-Department of Chemical Engineering, University of Michigan,
	Program)	U.S.A.
		-School of Chemical, Biological and Materials Engineering,
		University of Oklahoma, U.S.A.
		-Department of Macromolecular Science and Engineering, Case
		Western Reserve University, U.S.A.
	Doctor of Philosophy in Polymer Science	-Department of Chemical Engineering, University of Michigan,
	(International Program)	U.S.A.
		-School of Chemical, Biological and Materials Engineering,
		University of Oklahoma, U.S.A.
		-Department of Macromolecular Science and Engineering, Case
		Western Reserve University, U.S.A.
