## International Nursing PhD Program

### Introduction of Program

National Taipei University of Nursing and Health Sciences originally founded in 1954 and was the first nursing college in Taiwan. In 2005, NTUNHS established a doctoral program in nursing; this was the first doctoral nursing program in the nation provided by a technological and vocational school. In response to students' diversified development and career planning needs, the School of Nursing has the best-rated PhD-level faculty in the country, and develops competency-based courses connected to the nursing practice, as well as implement objective methods for competence assessment. Our doctoral program aims to nurture healthcare talents in nursing leadership, nursing education, and nursing research.

### Graduation Requirements

After PhD nursing students successfully complete the first year study with total 19 credits of coursework, they can take a comprehensive written PhD Qualifying exam. Students will be able to take the proposal defense and dissertation defense after they have passed their qualifying exam. Students will need to fulfill a Learning Achievement score by publishing their academic articles, presenting conference papers, or registering a (related product) patent. Each student also needs to have at least 14 days of international learning experience abroad at schools or organizations recognized internationally.
