WELCOME TO CHULALONGKORN

Undergraduate study is the first step of your experience as a member of an institution of higher education – and like every first step, it is always exciting and challenging. As you are going to take the first step that will have an impact on the rest of your life, I invite you to take it at Chulalongkorn University, where we are ready to fulfill what you wish for in higher education and to help you develop your potentials and the skills you need for your future.

Chulalongkorn University, or “Chula” as we here call it, has designed programs that are relevant to the demands of the twenty-first century society, preparing life-long learning for students and providing them with first-hand experience that offers them a space to discover their inclination and what they want to be or do in the future.

We have been committed to producing quality students who, after their graduation, should be able to apply what they have acquired from their study to make a difference to society on a national and an international scale. Apart from that, Chula encourages our students, under the supervision of experienced faculty members and researchers, to conduct impactful research and innovations that are in line with social needs and sustainable society.

I am pleased to welcome you all to Chulalongkorn University, Thailand’s first and leading institution of higher education. Since its inception in 1917, the University has relentlessly strived for excellence in teaching and research. Substantial evidence of our achievements is that the QS World Universities Ranking has ranked us first in Thailand for eight consecutive years.

Since Chula is located in the heart of Bangkok, studying here will expand your academic horizon to embracing cultural and traditional perspectives. Hence, you are close to the venues where you can experience the Thai way of life as well as culture and tradition through visiting museums, art and cultural centers as well as temples, which are in the vicinity of the Chula campus.

We take it as our privilege to be part of your memorable first step towards the future. I hope that this *Prospectus* will ensure that you have made the right decision to embark on your academic pursuit at Chula. We are looking forward to seeing you all soon at our university and in our vibrant community.

Prof. Bundhit Eua-arporn, Ph.D.
President
Chulalongkorn University

CHULA IN A MINUTE

THAILAND'S FIRST INSTITUTION OF HIGHER EDUCATION
ESTABLISHED IN 1917

Ranked 1st in Thailand

Green University and Ranked
in THE Impact Ranking

Located in the Center
of Bangkok

WHY CHULA?

QUALITY EDUCATION

At Chula, we can ensure you that you will have the opportunity to take classes with and supervised by the faculty members who are ready to guide you and share their expertise with you. Each program is designed to meet the demands of the students and society.

RECOGNITION

We have been ranked first in Thailand for academic reputation by QS World University Ranking for 9 consecutive years and ranked among the top Thai universities for research. Our academic staff and researchers have been recognized, nationally and internationally, for their striving for academic excellence and reputed ground-breaking research.

UNIQUENESS

Being Thailand's oldest university, we value our heritage but we also encourage and support technological innovations of the twenty-first century. You will see the coexistence of traditions and modernity, which are harmoniously blended at Chula.

OUTSIDE CLASSROOM EXPERIENCE

Chulalongkorn University (Chula) offers more than an educational experience. There are over 40 student groups/clubs available for you to pick, choose and join, based on your interests.

THE BEST LOCATION

Our main campus is located in the center of Bangkok and can be reached by all means of transportation, including the Sky Train and the Metro. We are close to museums, art and cultural centers, temples, malls and local communities where you can explore the Thai way of life, as well as culture and tradition.

GREEN UNIVERSITY

CU pop bus
Eco-friendly vehicles

MuvMi TukTuk

LIFE AT CHULA

You will not be bored if you spend time at Chula. Apart from studying, there are loads of places and activities on campus where you can spend your time and take part in.

When you study at Chula, you will benefit from our wide range of facilities designed to support your interests,

such as a library or a co-working space as well as sports facilities. If you get hungry, there are various canteens on campus where you may get food at a reasonable price. For the transportation within the campus, Chula students and staff can move around the campus free of charge

by using eco-friendly vehicles such as the CU pop bus or the MuvMi TukTuk.

Furthermore, if you have free time and want to spend it off campus, you may head to a shopping center, which is only a 10-minute walk away. As Chulalongkorn University is located in the heart of Bangkok, it is surrounded by malls, convenient stores, and cafe's where you can find anything out there!!

You can find more details of how to get to the university or a campus map on our website. Please click here: <https://www.chula.ac.th/en>

CHULA ART TOWN

“Chula Art Town” is a public art project to add art to the neighboring areas around Chulalongkorn University. The “Chula Art Town” artists include a talented group of CU students, professors and graffiti artists, who have gathered together to create street artwork on buildings in the Suanluang-Samyan-Siam Square areas. Through vibrant and stunning graffiti, the project illustrates how art can enhance the urban communities and increase the enjoyment of public space for passersby.

A VARIETY OF ACTIVITIES

AT CHULA

International students:
We are a global university

Easy to get around:
a perfect place for students

THINGS YOU SHOULD KNOW BEFORE COMING TO THAILAND

Name

Thailand (or Pra-Thet-Thai: ประเทศไทย, which in Thai, means "Land of the Free")

Language

Spoken and written Thai can be incomprehensible to temporary visitors; however, English is widely understood, particularly in Bangkok where it is used as the means of communication with foreigners. English and some European languages are spoken in most hotels, shops and restaurants in major tourist destinations and Thai-English road and street signs are found nationwide.

Capital

Bangkok (or Krung Thep: กรุงเทพฯ, meaning "City of Angels")

The Monarchy

The Monarchy is regarded as the central unifying element in the triad of the nation, kingship and religion. The Thai people maintain deep respect for their Royal Family, and visitors should be careful not to show disrespect to the King, the Queen and royal children.

Religion

Buddhism (95%), Islam (4%), others (1%)

Government and Administration

Thailand has been governed by constitutional monarchy since 1932. The Parliament is composed of 2 Houses, the House of Representatives and the Senate.

Time

The time in Thailand is seven hours ahead of Greenwich Mean Time (+7 hours GMT).

Climate

Thailand enjoys a tropical climate with three distinct seasons – hot and dry from February to May (average temperature of 34°C and 75% humidity); rainy with plenty of sunshine from June to October (average day temperature of 29°C and 87% humidity); and cool from November to January (temperatures ranging from 32°C to below 20°C with a drop in humidity). Much lower temperatures are experienced in the North and the Northeast at night. The South has a tropical rainforest climate with temperatures averaging 28°C almost all year round.

Currency

The Baht (Thai: บาท, sign: ฿; code: THB) is the currency of Thailand. It is subdivided into 100 Satang (สตางค์). The issuance of currency is the responsibility of the Bank of Thailand.

Electricity

The electric current is 220 volt AC (50 cycles) throughout the country. Plug adapter kits should be used with items, such as electric shavers, hair dryers, tape recorders and other electric appliances.

Clothing

Light, cool clothes are sensible and a jacket is needed for formal activities/events. Shorts (except knee-length shorts), sleeveless shirts, tank tops and other beach-style attire are considered inappropriate when not actually at the beach or in a resort area. Neat attire is required when entering temples or palaces.

Telephone Services

At present, home telephone numbers (for local calls and long distance calls within the country) have nine digits, while mobile phone numbers have 10 digits.

- **For Bangkok calls :**
the code is 02 followed by XXX XXXX.
- **For provincial calls :**
an area code is added to the existing numbers. For example, the area code for Chiang Mai is 053 = 0 53XX XXXX; the area code for Phuket is 076 = 0 76XX XXXX.
- **For mobile phones :**
08 or 06 are added to the existing numbers, for example, 08 XXXXXXXX.
- The new system has no effect on international phone calls.
- The international dialing code for Thailand is 66.
- When making international calls to Thailand, dial 66 and omit the initial 0.
- When making international calls from Thailand, first dial 001+country code+area code+telephone number.
- When calling Laos or Malaysia, there is a special code which is charged at a semi-domestic rate.
- When calling Laos, first dial 007+856+area code +telephone number.
- When calling Malaysia, first dial 09+06+area code +telephone number.
- Direct assistance: 1133 (local), 100 (international).

Emergency Telephone Numbers:

- Central Emergency : 191
(Police, Ambulance, Fire)
- Highway Patrol : 1193
- Crime Suppression : 195 or 0-2513 3844
- Tourist Police : 1155
(English, French and German spoken)
- Tourism Authority of Thailand (TAT)
Call Center : 1672
- Immigration Bureau : 0-2287 3101-10
- Pathum Wan Metropolitan
Police Station : 0-2215 2991

ACCOMMODATION

Chulalongkorn University International House (CU iHouse) is a 26-storey, 846-unit on-campus residence for international students and lecturers. Rooms come fully furnished with air conditioning, modern amenities, 24-hour security and safety systems. The residence is included on the route of the university's shuttle bus services.

Central Library

To support academic learning and research excellence, Chulalongkorn University provides a central library (Office of Academic Resources) for students, faculty members and the public with over a million books.

The library contains creative studios, where everyone can explore, create, share and apply knowledge and ideas, as well as free spaces, where everyone can work, research, study and consult.

Operation time:

Monday-Friday 8AM-9PM and
Saturday-Sunday 9AM-6PM.

However, during the examination period, the library will operate 24 hours every day to facilitate the students.

<https://www.car.chula.ac.th/>

CHULA'S FACILITIES

Sports Complex

A five-storey sport center located in the west of the campus provides you with free spaces and facilities for practicing, competing and exercising.

Operation time:

Monday-Friday 7AM-9PM and
Saturday-Sunday 9AM-6PM.

For more information, please contact the CU Sports Complex Office (0-2218-2874-7).

<http://www.cusc.chula.ac.th/wordpress/jubilee-building-ratchasuda-stadium-cu-sports-complex/>

CO-WORKING SPACE

The Co-working Space at Chula offers actual workspaces for everyone to use and is easily accessible by Chula's transportation. It is the ideal location for staff and students to work on their research, read and write as well as relax. The following are just examples of the Co-working Space that we have around the campus.

PLEARN Space

Plearn Space is the first Digital Co-Learning Space in Chula, located on the 1st Floor of the Premburachat Building. This is the place where **PLAY & LEARN** activities are combined to support our students' learning from the activities they share with their friends.

Operation time:

Monday-Friday 8AM-9PM | Saturday-Sunday 9AM-6 PM

However, the library will operate 24 hours every day during the examination period to facilitate the students.

Common Room or Group Study Room

The common room reservation aims to facilitate an indoor event that Chula students would like to hold. The group study room is for a small group of students to have a close space for discussion at the central library.

Chula students can reserve these rooms through the CUNEX application. (More > Reservation > fill in the information)

https://www.car.chula.ac.th/study_room.php

SAMYAN CO-OP

SAMYAN CO-OP, a flexible space for every function you need. Light up your inspiration and find your own community here:

<https://samyancoop.samyan-mitrtown.com/>

DO YOU KNOW THAT WE HAVE THE ECOSYSTEM TO NURTURE AND PROMOTE ENTREPRENEURIAL OPPORTUNITIES TO LEVERAGE YOUR CAREER PATH?

CREATING NEW ENTREPRENEURS

Chulalongkorn University's slogan, "Innovations for Society" shows that the University thrives to push society forward with knowledge and innovations. If you have innovative ideas but do not know what to do next, come to share your ideas with us!

The University has initiated the entrepreneurial ecosystem for aspiring students, who want to make their ideas concrete.

They may do so by seeking advice and gaining support from the following units.

CU Enterprise Co., Ltd.

CU Enterprise was established with an aim to support the birth of innovators, entrepreneurs and businesses in the Chula community. We do not only create an ideal innovation ecosystem for you but also act as a network link between the business and the industry sector. We will be delighted to be part of your dreams.

CU Innovation Hub

The CU Innovation Hub is a melting pot of potential start-ups that are ready to launch their commercial innovations. The hub now has a market value of more than 15 billion Baht and has created over 2,000 new entrepreneurs. This is another institute that plays a major role in supporting students, innovators or entrepreneurs to reach their dreams.

For every Chula student, if you have business ideas, please come and meet us to share your thoughts and working concepts. We are well equipped with an advisory team that can help you get a head start in your entrepreneurial journey!

BLOCK28

Conceptualized as a 'sandbox' project to connect all lifestyles of creative people, BLOCK-28 is a community that promotes innovation and business links to build a vibrant startup ecosystem. It also offers an exchange environment for start-ups and entrepreneurs to exchange and discuss their business ideas.

Siam Innovation District

The Siam Innovation District or "SID" is the place that serves as a bridge to connect students or young innovators, who have ideas but lack platform to express them, with the industrial sector and match their interests so as to turn the ideas/concepts into concrete projects. The SID also provides knowledge and initiate activities for students, inventors and entrepreneurs to take part in. Some of these activities are, for example, the Futurism Community, Marketplace, Industry Liaison and Inno-dating.

ADMISSIONS FOR DEGREE STUDENTS

UNDERGRADUATE PROGRAMS

Ranked as the top university in Thailand by the QS University Rankings, this comprehensive university offers a wide range of programs, both regular and international, on undergraduate and graduate level.

The following is the schedule for Admissions to International Undergraduate Programs.

1. Application Form

The link to submit application and information on each program is available on website <https://www.chula.ac.th/en/academics/admissions/undergraduate-admissions/>

2. Application Period (Approximately)

Early Admission: From October to December
Admission: From January to March

Please check directly with the program for the application date

3. Oral Interview and/or Written Examination (If any)

April (Approximately)

Please check directly with the program for the interview and written examination dates

4. Announcement of Student Acceptance to the Program(s)

The first batch of selected applicants will be officially announced on each program's website in May (approximately)

5. Students' Confirmation of Their Choice

The first batch of the accepted applicants must confirm their choice within May.

A certificate of admission will be issued and sent to the applicants via email. They are required to present this certificate to the program of their choice when they register.

**Please check the date of confirmation on the official website of each program at <https://www.chula.ac.th/en/admissions/undergraduate-admission/>

6. Application Fee

Applicants are required to include an application fee of THB 1,000 - 1,500 (plus 3% credit card processing fee), for each program for which they apply. They can make credit card payments by logging into their application account. Applicants should note that there is no refund for the cancellation of any program for which they have applied.

SEMESTER SYSTEM

First Semester

Classes begin	August
Midterm examinations (if any)	September
Final examinations	December

Second Semester

Classes begin	January
Midterm examinations (if any)	March
Final examinations	May

Summer Session

Classes begin	June
Classes and examinations end	July

Admission for Degree Students | Undergraduate Programs

Chulalongkorn University welcomes international applicants (non-holders of a Thai passport) for undergraduate admission to international programs. Currently, 19 undergraduate programs are offered in English:

- Aerospace Engineering
- Architectural Design
- Automotive Design and Manufacturing, and Electric Vehicle Engineering
- Business and Tech Law
- Applied Chemistry
- Arts and Science in Integrated Innovation
- Biotechnology
- Business Administration
- Chemical Process Engineering

- Communication Design
- Economics
- International Medical Program*
- Nano Engineering
- Psychological Science
- Communication Management
- Information and Communication Engineering
- Language and Culture
- Politics and Global Studies
- Robotics and Artificial Intelligence Engineering

*International Medical Program or CU-MEDi is an international Doctor of Medicine (MD) program offered by the Faculty of Medicine at Chulalongkorn University. The program requires at least four years of study for bachelor's degree holders.

ADMISSIONS FOR NON-DEGREE STUDENTS

1. Visiting students are responsible for tuition and other fees and are required to directly contact their program of interest. Additional details about fees and application documents are available at <https://www.chula.ac.th/en/academics/admissions/>

2. Exchange students from one of Chulalongkorn University's partner universities may enroll for one semester or one academic year as an exchange student. Please note that exchange students will be able to obtain an academic transcript but they will not be granted with a degree from Chulalongkorn University. You are required to contact your home university to determine if you meet the requirements. They may nominate you as an exchange student to the Office of International Affairs and Global Network at Chulalongkorn University. After we have received your nomination and application documents, we will forward them to the Faculty, Institute or School concerned for consideration. The official result will be notified to your home university (IRO). Exchange students will be exempt from tuition and other fees.

EXCHANGE STUDENTS' GENERAL ENTRY REQUIREMENTS

GPAX of at least 2.75;

A copy of an academic transcript has to be submitted along with the application form.

English-Language Proficiency

(The English language proficiency test score should not be more than 2 years).

TOEFL	Internet-based:	79
	Computer-based:	213
	ITP:	550

IELTS	Overall band:	6.0
-------	---------------	-----

Documents Required:

1. Completed application form.
2. Nomination letter from your home institution.
3. 2 letters of reference in sealed and signed envelopes.
4. Official academic transcript (to be issued by the current institution attended by the applicant).
5. English proficiency score record (for non-native speakers of English).*
6. Copy of the passport.
7. Study plan/description of academic interests (on a separate A4-sized paper).
8. Eight one-inch, colored photos (on a light blue background) taken no more than six months previously in smart attire or a civil service uniform, signed by the applicant on the reverse side. One photo should be attached to the application form.

* This is required for exchange students who wish to study in an international program.

INSURANCE

Each International student is required to buy the Chula Group Health Insurance, which costs 2,000 Baht per academic year. This health insurance also covers Covid-19. It is noted that the Personal Accident Insurance has already been included in the student's tuition fee.

SCHOLARSHIPS FOR UNDERGRADUATE STUDENTS

Faculty / School	Program	Available Scholarship
Faculty of Architecture	Architectural Design (INDA)	Yes
	Communication Design (COMMDE)	Yes
Faculty of Arts	Language and Culture (BALAC)	(-)
Faculty of Commerce and Accountancy	Business Administration (BBA)	Yes
Faculty of Communication Arts	Communication Management (BCM)	Yes
Faculty of Economics	Economics (EBA)	Yes
Faculty of Engineering	Aerospace Engineering (AERO)	Yes
	Automotive Design and Manufacturing, and Electric Vehicle Engineering (ADME-V)	Yes
	Information and Communication Engineering (ICE)	Yes
	Nano Engineering (NANO)	Yes
	Robotics and Artificial Intelligence Engineering (Robotics AI)	Yes
	Chemical and Process Engineering (ChPE)	Yes
Faculty of Law	Business and Tech Law (LLBel)	(-)
Faculty of Medicine	Chulalongkorn International Medical Program (CU MEDi)	Yes
Faculty of Political Science	Politics and Global Studies (PGS)	(-)
Faculty of Psychology	Psychological Sciences (JIPP)	Yes
Faculty of Science	Applied Chemistry (BSAC)	Yes
	Biotechnology (BBTech)	Yes
School of Integrated Innovation	Arts and Science in Integrated Innovation (BAScii)	Yes

THE SYMBOLS FOR THE EVALUATION OF THE STUDY

The evaluation of each course shall be coded into different grades that have the definition and attached points as the following:

GRADE	DEFINITION	ATTACHED POINT
A	Excellent	4.0
B+	Very Good	3.5
B	Good	3.0
C+	Fairly Good	2.5
C	Fair	2.0
D+	Poor	1.5
D	Very Poor	1.0
F	Fail	-
I	Incomplete	-
M	Missing	-
P	In Progress	-
S	Satisfactory	-
U	Unsatisfactory	-
V	Visitor	-
W	Withdrawn	-
X	No report	-

Calculation of a Grade Point Average (GPA)

At the end of a semester, each student's study result will be calculated and there are two types of Grade Point Average calculation.

1. A GPA of a student's study result at the end of each semester, is calculated by multiplying the number of credits of each course that a student has taken with the points assigned for a letter grade, adding up all the multiplied numbers subtract them with the total number of credits that a student has taken during the semester.
2. A GPA of a student's study result during all his/her time spent at the university, or a GPAX, is calculated by multiplying the credits of all the courses that a student has taken while at the university with the points assigned by letter grade, adding up all the multiplied numbers and subtract them with the total number of credits that a student has taken during his/her whole time at the university.

FACULTY OF ARCHITECTURE

Widely regarded as one of the best schools to produce graduates with architectural knowledge that meets universal standards, the Faculty equips students with cultural identity, social responsibility, and professional ethics.

INDA, the International Program in Design and Architecture at the Faculty of Architecture, Chulalongkorn University is a 4-year program that produces graduates with a Bachelor of Science in Architectural Design.

While the program's main focus is design and architecture,

INDA's core philosophy is geared to produce creative critical thinkers who are highly motivated to evolve, both themselves and the world around them, through built environment.

The program provides students with a solid foundation for lifelong decision-making skills and long-term career goals in both local and global opportunities. Students will understand and respect the needs of industry and society as well as have an unwavering sense of commitment to global progress. Their awareness for values, ethics and social responsibility is pursued in parallel with their rigorous intellectual development. All classes are instructed by academics at the forefront of creative design and architectural thinking and practice.

With a unique yet flexible INDA course structure, students may choose to continue to graduate studies and become a practicing architect or choose an area of specialization in other design and planning disciplines such as urban design, landscape architecture, industrial design, interior design and design innovation. They may also decide to pursue graduate studies related to design disciplines to become a historian / theorist, conservationist, building technologist, real estate investor, or facility manager. Another exciting possibility is to explore the business and technological aspect of architecture.

The benefits of this quite innovative program are truly endless. Upon graduation, graduates will undoubtedly have the potential and skill to become leaders in their chosen profession.

 Bachelor of Fine and Applied Arts (B.F.A.)
Academic Calendar System : Semester
Duration of Study : 4 years

Course Calendar :
First Semester : August - December
Second Semester : January - May
Summer Semester : June - July
Admission Period : December - January
Total Expected Intake : 50

Communication Design (CommDe) was established in 2009 by the Department of Industrial Design, Faculty of Architecture at Chulalongkorn University. CommDe is a diverse international program that focuses on communication design, ranging from graphic design, illustration, design for publication, photography, moving images, design for new media to other contemporary creative practices.

The program's foremost objective is to create an international community of intellectuals in the realm of communication design. Since CommDe is located in the heart of Bangkok, which is a cultural melting pot, its second objective is to create a platform where knowledge, concepts and communication design related to practices from both the East and the West can be merged.

CommDe's goal is to produce graduates with great vision and maximum potential, who are able to meet the needs of a contemporary culture. CommDe graduates are competent in terms of thinking and practicing communication design according to international standards and as creative professionals who practice their disciplines ethically and effectively.

Admission Requirements (all must be submitted)

- **Application form (including)**
 - A personal statement
 - Samples of extracurricular activities
 - A formal portrait photograph
 - School Transcript and Certificates from the Ministry of Education
 - Student Certificates from current school (only for those still studying)
- **English test scores :** One of following
 - TOEFL (Paper-based) $\geq$ 550
 - TOEFL (Internet-based) $\geq$ 79
 - IELTS $\geq$ 6.0
 - SAT (Evidence-based Reading and Writing) $\geq$ 450
- **Maths test scores :** One of following
 - CU-AAT (Maths Section) $\geq$ 450
 - SAT (Maths) $\geq$ 490
 - Grade "B" in Mathematics at A-Level Test
 - Grade "B" in Mathematics in the Australian Entrance Exam
- **Portfolio :** consisting of images of your own creative, design and/or art works, submitted the format outlined below
 - Applicants must submit a portfolio, consisting of 12 works, and submit it on the application website.
 - A portfolio must be submitted in the form of a PDF file which contains exactly 12 pages of works (1 work per 1 page). The size of the file must not be over 25 MB. The PDF file must be named with the applicant's first name and surname in English.
 - Or, a portfolio can be submitted in the form of 12 JPEG files of the applicant's works (1 page per 1 file)
- At the bottom-right of each page, the applicant's first name and surname (in Roman characters).
- The size of every page on the PDF file should be 1920x1080 pixels in landscape orientation.
- See more details website; www.commde.com

- Letter(s) of reference
- High-school equivalency from the Academic Testing Center, Chulalongkorn University (only for those who complete high-school from oversea or GED)
- Identification card or Passport (for international applicants)

- CU-AAT (Verbal Section) $\geq$ 400
- CU-TEP $\geq$ 80 (Chulalongkorn University Test of English Proficiency)
- Duolingo $\geq$ 110

- IB (Maths) not lower than 5 (IB grading system)
- NCEA (Mathematics or numeracy) at level 2 or higher with at least total 4 credits and with a minimum of Achieved

FACULTY OF ARTS

The leading institute that produces and disseminates knowledge in the field of humanities and related disciplines for academics and social knowledge.

BALAC

Faculty : Faculty of Arts
Program : Language and Culture
Degree Offered : Bachelor of Arts (B.A.)

Academic Calendar System : Semester
Course Calendar :
First Semester : August - December
Second Semester : January - May
Summer Semester : June - July
Duration of Study : 4 years
Admission Period : October
Total Expected Intake : 115

The Bachelor of Arts in Language and Culture program is Chulalongkorn University's flagship global liberal arts program and Thailand's first cultural studies program. Since 2008, it has prepared a wide range of students with 21st century humanities skills, knowledge and experience to help them succeed in today's world.

BALAC began as an international program, taught in English, in the renowned Faculty of Arts of Chulalongkorn University. Aiming to provide carefully selected students with a quality globally-oriented liberal arts education, BALAC has focused on teaching Cultural Studies in English along with foreign language competence. In doing so, it has fostered critical thinking, creative problem-solving and clear communication in its graduates through a wide range of cultural studies classes, as well as giving them competency in a foreign language. These primary goals remain central to the program's future.

BALAC has grown and improved in its first decade.

BALAC is larger and more international. Since 2008, the BALAC program has more than doubled the number of enrolled students in each class to more than 100 new full-time students each year and quadrupled the number of foreign faculty members who teach in it. It now comprises about a quarter of the Faculty's students. In addition, each semester more than thirty inbound exchange students from many universities around the world further diversify and globalize the

program. To help realize its international mission within the Faculty of Arts, each year more than thirty outbound BALAC students leave to study for a summer, a semester or a full academic year in a foreign university. The program also has plans to increase and enhance its global expansion in the future.

BALAC is forward-looking and committed to teaching real-world skills. From 2018, the curriculum has expanded and diversified. In addition to providing the concentrated study of a foreign language, the program has also offered concentrations in two new areas, Global Cultures and Media Cultures. Students will have a wider range of Cultural Studies classes to choose from, including many with a stronger practical orientation. This can be seen in two important new options available to students from 2018: an Internship for which they can receive 3 credits upon completion, and a capstone Senior Project, which students can do for 6 credits in their final year.

The evolution of the BALAC program in its first decade reflects an awareness that students need more than just knowledge and a diploma to succeed in today's world. They need concrete evidence of their abilities in action, both in and out of the classroom. The above extras, along with expanded forms of international engagement and community involvement offered by the program, aim to help BALAC graduates achieve an edge in global academic settings and in today's global workplace.

Admission Requirements

Admission (1st Round)

- English proficiency tests : One of following
 - We DO NOT accept TOEFL ITP
 - We DO NOT accept IELTS indicator
 - TOEFL (Internet-based) ≥ 95
 - IELTS ≥ 7.0
 - CU-TEP* ≥ 90
 - DET (Duolingo English Test) ≥ 130

* For more information, please visit <http://www.atc.chula.ac.th/index2.html>

- Aptitude tests : One of following

- SAT (Evidence-Based Reading and Writing) ≥ 480

Send Score Report via College Board to Balac Code : 6902

- CU-AAT (Verbal) ≥ 480
- ACT (English and Reading) ≥ 34

Candidates of this round will also have to undergo interviews (No written examinations).

FACULTY OF COMMERCE AND ACCOUNTANCY

A chief business school delivering life-changing experiences with innovative wisdom and a philanthropic spirit.

BBA

Business Administration

This international business program is tailored to meet international standards of excellence and is designed to give maximum flexibility in career preparation as well as a solid foundation in business.

Additionally, the program offers an exciting student exchange with BBA degrees in International Business, Accounting, Financial Analysis and Investment. No matter which career path a student chooses, he/she will be geared towards success.

Faculty : Faculty of Commerce and Accountancy
Program : Bachelor of Business Administration
(International Program)

Majors of Study :

1. International Business Management major
 - International Business Management
 - Financial Analysis and Investment
 - Brand and Marketing Management
2. Accounting Major

Degree Offered :

Bachelor of Business Administration (B.B.A.)

Academic Calendar System : Semester

Course Calendar :

First Semester : August - December
Second Semester : January - May
Summer Semester : June - July

Duration of Study : 4 years

Admission Period : December - March

Total Expected Intake :

200 for Thai and
20 for Non-Thai and Dual passport
applicants

Admission Requirements

Step 1 : Basic Criteria

1. Having completed or going to complete Mathayom 6 or its equivalent and being 17 years of age.
2. Achieving the minimum score of one of the following English proficiency tests:
 - CU-TEP and Speaking ≥ 101
 - IELTS (Academic) ≥ 6.5
 - TOEFL (Internet Based) ≥ 79
 - GaoKao English Subject ≥ 120
 - Duolingo English Test ≥ 105

Step 2 : Evaluation Criteria

Applicants will be evaluated on one of the following academic aptitude tests:

- SAT (Maths & Evidence-Based Reading & Writing) ≥ 1270
- CU-AAT ≥ 1200
- GaoKao Maths Subject ≥ 80
- ACT Composite (English, Reading Comprehension, Maths and Sciences) ≥ 27

The combined scores of CU-AAT, or SAT and CU-TEP and Speaking, taken on the same day within 2 years before the application deadline.

Step 3 : Interview

Fees

Fees (Thai Baht)	Thai Student	Non-Thai Student
Regular Semester		
Tuition Fee	21,000	21,000
Special Fee	84,000	139,000
Total Fees per Semester	105,000	160,000

Fees (Thai Baht)	Thai Student	Non-Thai Student
Summer Semester		
Tuition Fee	5,250	5,250
Special Fee	36,000	67,500
Total Fees per Semester	41,250	72,750

FACULTY OF COMMUNICATION ARTS

Make the most out of everything in the communication arts style, spreading the message to the public effectively, accurately, and ethically.

BCM

In response to the fast-paced changes in technology, the increased mobility of goods, services, capital and labour, as well as the growth of the global creative economy, the four-year undergraduate program in Communication Management teaches skills in order to produce exceptional graduates who are the front-runners in today's demanding job market.

Introduced in 2004, the Communication Management program is designed to provide intellectual and professional tools that are crucial in developing a high standard of graduates. The program's graduates are equipped with a thorough understanding of both national and international communications and are capable of managing a vast variety of communication tasks. All courses are taught by respected communication professionals who are at the cutting edge in their chosen fields both in Thailand and overseas.

FACULTY OF ECONOMICS

A leader in the studies of human behavior in relation to economic events,
with accurate theories that can be effectively applied to real life.

EBA

Faculty : Faculty of Economics

Program : Economics

Degree Offered :

Bachelor of Arts (B.A.)

Academic Calendar System :

Semester

Course Calendar :

First Semester : August - December

Second Semester : January - May

Summer Semester : June - July

Duration of Study : 4 years

Total Expected Intake : 150

The Bachelor of Arts Program in Economics (EBA)

received its charter from the Chulalongkorn University Council on February 28th, 2002. Classes began on August 4th, 2002 with 45 students. Since then the EBA has been continuously building its reputation for high-quality teaching and learning in the field of economics. The EBA accepts up to 150 selected applicants to the program per year. As one of the leading international programs in Thailand, it has been able to attract a large number of invited visiting professors from prestigious institutions around the world. Also, the program has successfully forged strong partnerships with many national and international institutions. This has led to many benefits, such as the student exchange programs, which are popular among the students.

The vision of the EBA is to be “an internationally competitive program aiming at creating highly completed economists with ethical and social responsibility to contribute to society” with three mission statements as what follows:

- 1.To equip students with well-rounded and in-depth knowledge that meets international standards of excellence.
- 2.To enhance students' understanding of ethics, social awareness and social responsibility

and develop the future generations of engaged and responsible citizens and leaders of the country and the world.

3.To emphasize the development of core competences for life-long learning, such as skills and personal attitudes, and consider it an integral part of high-quality undergraduate education in economics.

The EBA pursues five strategies to achieve its vision and mission:

1. To design a curriculum that responds dynamically to the changing global economy.
2. To attract outstanding foreign and domestic scholars as well as business and government experts to engage with the EBA.
3. To create active learning environments to improve students' experience within and beyond the classroom to stimulate critical thinking, problem solving, life-long learning and social responsibility.
4. To encourage students to apply knowledge to real world problems and participate in a wide range of academic and non-academic activities, domestically and abroad.
5. To broaden students' exposure to diverse cultural experience through international networks in preparation for further study and future employment.

Admission Requirements

The applicants must meet the requirements in Step 1 to be eligible for an interview.

Step 1 : Passing Criteria

- **GPAX** ≥ 2.75
- **English proficiency test scores (35% weight)** : One of following
 - IELTS ≥ 6.0
 - TOEFL (Internet Based) ≥ 79
 - CU-TEP ≥ 79
 - CU-AAT (Verbal) ≥ 400
 - SAT (Evidence-Based Reading and Writing) ≥ 450
 - ACT (English & Reading) ≥ 31
 - Duolingo English Test ≥ 100
- **Mathematics test scores (35% weight)** : One of following
 - CU-AAT (Maths) ≥ 600
 - SAT (Maths) ≥ 650
 - SAT Subject Tests (Maths Level 2) ≥ 650
 - ACT (Maths) ≥ 27
 - IB Maths (Higher Level) ≥ 6
 - A-Level Maths Grade $\geq$ “B”

Step 2 : Interview

The interview will be conducted in English (30% weight).

Notes

- The official score report is valid only if the tests were taken no more than 2 years prior to the application deadline (except IB Maths (HL) and A-Level Maths).
- Applicants who wish to apply by using CU-AAT (Verbal & Maths) or SAT (Evidence-Based Reading and Writing & Maths) or ACT (English and Reading & Maths) must submit the scores of both parts from the same test occasion.

Fees

Fees (Thai Baht)	Thai Student	Non-Thai Student

FACULTY OF ENGINEERING

An illustrious institution that produces quality engineers
and cutting-edge innovations for the world.

Faculty : Faculty of Engineering
Program : Aerospace Engineering (AERO)
Degree Offered : Bachelor of Engineering (B.Eng.)
Academic Calendar System : Semester
Duration of Study : 4 years
Total Expected Intake : 35

Course Calendar :
 First Semester : August - December
 Second Semester : January - May
 Summer Semester : June - July
Admission Period :
 Early Admission : December - January
 Regular Admission : March

AERO

Aerospace Engineers play an invaluable role in the development of modern aircraft and spacecraft. Ever since the advent of the first flying machines, new technologies have propelled us faster, further, and more efficiently than ever before. Today there is an ever-increasing need for human resources with the capability not only to repair, maintain, and construct today's aircraft, but also to look to the future and design those of tomorrow.

Global air travel is expanding at an unprecedented pace, prompting the foundation of many new commercial airlines in Southeast Asia, and setting a stage for the new era of commercial supersonic flight. At the same time, local air travel in the urban area is being transformed by the new concept of urban air mobility (UAM).

Unmanned aircraft system (UAS) has also emerged with endless real-world applications from urban parcel delivery to precision farming. Meanwhile, space technology has become a key role in future country's development and is required for advanced strategic defense, satellite technologies or even space exploration.

To cope with this fast-growing demand in the aerospace industry, our Aerospace Engineering program, initially developed by a collaboration of Chulalongkorn University and the Royal Thai Air Force, is tailor-made with strong academic focal points on the emerging aerospace technologies. It is our ultimate goal to produce highly trained aerospace engineers with outstanding theoretical and practical skills who will be part of the solution of our future.

ADME-V

Faculty : Faculty of Engineering

Program : Automotive Design and Manufacturing, and Electric Vehicle Engineering (ADME-V)

Degree Offered : Bachelor of Engineering (B.Eng.)

Academic Calendar System : Semester

Duration of Study : 4 years

Total Expected Intake : 55

The automotive industry is truly a world-wide business consisting of international multi-disciplinary functions in high-tech engineering, manufacturing, design, research and development, logistics, management & marketing and covers all areas of the seven continents, such as USA, Europe, Africa, Australia, and especially Asia, where in this decade all automotive concentration has accounted for 60% of global automotive industries.

With the strong growth of automotive industries in the region, the current and upcoming activities require engineers with multi-engineering knowledge and skills as well as international communication capability. **The Automotive Design and Manufacturing, and Electric Vehicle Engineering (ADME-V)** program offers a new dimension of multi-disciplinary courses profiling from automotive engineering, mechanical engineering, engineering design, manufacturing, regulation, electric and autonomous vehicles, and management. Thailand is an

Course Calendar :

Second Semester : January - May

Summer Semester : June - July

Admission Period :

Early Admission : December - January

Regular Admission : March

automotive hub in the region. As manufacturing grows and other automotive activities, such as design and development, continue to grow, so will the demand for qualified engineers within the region. This international program will provide graduates with multi engineering knowledge and skills fit perfectly for much-needed automotive assemblers, part and component makers and other supporting industries. The ADME-V program has well established relationships with automobile manufacturers, and some of the classes are conducted along with them to fulfill students' industrial expertise.

Students may choose to concentrate on the field which will benefit them most in the different engineering areas of the automotive industry ranging from automotive design to manufacturing. Besides the industrial career path, graduates may choose to pursue a higher degree in related fields.

Admission Requirements

Total Expected Intake : 70

ICE is an exciting and promising integration of Computer Engineering, Electrical Engineering and Industrial Engineering. Once enrolled in the program, students will learn computing fundamentals, acquire heightened communication skills and achieve a solid foundation in management science. The diverse combination of courses will prepare graduates for the many stimulating challenges of the IT world.

The **ICE** program offers students a chance to become hardcore programmers, serving the international community with IT architecture for enterprises, software on mobile devices, satellite communications, game programming, computer networking and software engineering, just to name a few. This discipline is strengthened with the appreciation of Management Science, which will propel students' competency to the international level.

Nano Engineering is a multidisciplinary program that ingrains in students the basics (physics, chemistry, and biology) and the applied (chemical, electrical, optical, biomedical, and materials engineering on an atomic level). The program aims to produce undergraduates who are knowledgeable in the fundamental building blocks of nanotechnology through the two majors including Bioengineering and Advanced Materials Engineering.

On a sub-microscopic level, the physical, chemical and biological properties of materials are quite distinct from those of larger scale bulk matters. Uncovering these unique characteristics spurs the development of novel applications and ground-breaking research that is already making nano-technology the next industrial revolution. Nano technology is advantageous in

almost all industries and is beneficial in the country's future progress. Medicine, plastic, materials research and high performance electronics are just some of the many areas in which development on the nanoscale is becoming a major force for technological improvement.

Upon graduation, students will be capable of developing many manufacturing and service industries. They will possess problem-solving and analytical skills required for a successful engineer and at the same time have a deep understanding of sciences and materials, especially ones with the size in nanoscale. The graduates from this program can be relied upon for their strong scientific knowledge, practical engineering skills and effective management skills required to lead organizations into the ever-increasing competitive world.

Faculty : Faculty of Engineering
Program : Nano Engineering (NANO)
Degree Offered : Bachelor of Engineering (B.Eng.)
Academic Calendar System : Semester
Course Calendar :
 First Semester : August - December
 Second Semester : January - May
 Summer Semester : June - July

Duration of Study : 4 years
Admission Period :
 Early Admission : December - January
 Regular Admission : March
Total Expected Intake : 65

Admission Requirements

- Applicants must have completed or be currently studying in Mathayom 6 (Grade12) or equivalent
- Test results

Faculty : Faculty of Engineering
Program : Robotics and Artificial Intelligence (ROBOTICS AI)
Degree Offered : Bachelor of Engineering (B.Eng.)
Academic Calendar System : Semester
Duration of Study : 4 years
Total Expected Intake : 40

Course Calendar :
 First Semester : August - December
 Second Semester : January - May
 Summer Semester : June - July
Admission Period :
 Early Admission : December - January
 Regular Admission : March

ROBOTICS AI

Robotics and Artificial Intelligence Engineering is an interdisciplinary engineering field that combines the principles of Mechanical, Electrical, Computer, System, Mechatronics, Robotics and Artificial Intelligent fields. This program enhances students' learning beyond the classroom through various project-based courses which creatively integrate the knowledge of key components such as sensors, actuators, mechanisms, control, and machine learning. Subsequently, students will experience robotic mechanism, programming, control, and

artificial intelligence in the advanced projects in which they will combine the key components into a complete robotic system.

Robotics and Artificial Intelligence Engineering program provides students with the basis of robotics engineering and a deep understanding of the system integration. Students will have a holistic view of the robotic system. They can gain various specialties in robotic mechanism, control, machine learning, and artificial intelligence.

ChPE

Faculty : Faculty of Engineering
Program : Chemical and Process Engineering
Degree Offered :
 Bachelor of Engineering (B.Eng.)
Academic Calendar System : Semester
Duration of Study : 4 years

Course Calendar :
 First Semester : August - December
 Second Semester : January - May
 Summer Semester : June - July
Admission Period : March
Total Expected Intake : 40

Chemical and Process Engineering (ChPE) is the latest international program offered by the Department of Chemical Engineering, Chulalongkorn University. This program is managed and operated by the Department of Chemical Engineering, not the International School of Engineering. It has been created in response to 20-year National Strategic Plan that elevates BCG (Bio, Circular, Green) Economy to the level of national agenda. Nonetheless, our graduates are still capable of working in traditional chemical and petrochemical industries.

Why ChPE?

1. The ChPE curriculum has retained the essence of chemical engineering, while adding specialization in bio-process engineering and sustainable energy to catch up with future trends
2. The ChPE curriculum structure has been designed to fulfill the requirements for program accreditation by the Council of Engineers Thailand so that our graduates can apply for and obtain a license to practice regulated engineering profession in the Chemical Engineering discipline.
3. The curriculum structure allows our students the flexibility to participate in co-operative internship with industries or one-semester foreign exchange program without having to alter their study plan.

Admission Requirements

FACULTY OF LAW

With legal expertise and moral dignity,
we aim to lead the global community and dedicate ourselves to serving society.

LLBel

The LLBel program, or the Bachelor of Law, experiential learning in Business and Technology Law (International Program), at Chulalongkorn University is designed to build a foundation for our students to succeed in an ever-changing world of constant technological evolution and advancement. The immersive curriculum of this international program in law is the first to provide students with multiple cross-disciplinary skills through a broad range of courses with an emphasis on experiential learning. Students will be equipped with the knowledge of legal doctrines and business principles, along with critical thinking and analytical skills that enable them to become leaders in their future careers. Our graduates will have numerous opportunities to pursue their careers, whether in law practices, business sector, government, public services, or civil society.

This program offers a vibrant community of diverse nationalities, who engage and interact

in small group settings to encourage collaboration and teamwork, allowing them to learn from fellow students and professors. The diversity of students synergizes their experiences both academically and professionally through constructive discussions and well-crafted activities.

Our LLBel program combines the best of all aspects. First, to build a strong foundation for students, the curriculum offers mandatory fundamental law courses, ranging from civil and criminal law to administrative and international law. Second, to deepen the students' specialization, the curriculum offers two specialization tracks of business law or technology law with customized elective courses. Last, to provide students with professional experiences, the curriculum offers opportunities to participate in legal clinics or externships at renowned law firms. The professional experience requirements also include pro bono service to encourage a lifelong dedication to improving society.

Faculty : Faculty of Law
Program : Business and Technology Law (International Program)
Degree Offered : Bachelor of Laws (LLBel)
Academic Calendar System : Semester
Duration of Study : 4 years

Course Calendar :
First Semester : August - December
Second Semester : January - May
Admission Period :
First Round : December - February
Second Round : March - May

Application Requirements

- Applicants must have completed or are currently studying in their final year at either one of the following programs
 - High school diploma or equivalent in a domestic or foreign educational institution **or**
 - Undergraduate program or equivalent in any field from a foreign educational institution **or**
 - Undergraduate program or equivalent in a field other than law from a higher education institution in Thailand that is certified by the Ministry of Higher Education, Science, Research and Innovation or the Office of the Civil Service Commission
- Applicants must have achieved a minimum English proficiency:
 - They must have completed from or are currently studying in a high school or an undergraduate program from an English-speaking country **or**
 - They must have completed or are currently studying in the final year of an English-taught undergraduate program or international undergraduate program from an institution that is certified by The Ministry of Higher Education, Science, Research and Innovation or the Office of the Civil Service Commission **or**
 - A minimum score of English proficiency test (the test must not be taken more than 2 years before the application):
 - IELTS 6.5 **or**
 - TOEFL iBT (internet-based) 79 **or**
 - CU-TEP (Chulalongkorn University Test of English Proficiency) 88
- Applicants must have an SAT score with the minimum total score of 1200 on Evidence-Based Reading and Writing (EBRW) and Maths sections, and the EBRW score of not lower than 500. The score of the EBRW and Maths sections must be from the tests taken on the same test date and must not be older than 2 years on the last day of application.
- Applicants must have good behavior and guarantee the university that they are committed to studying to the best of their ability and are willing to strictly follow all current and future university regulations.

Fee

Approximately 292,000 THB per year for Thai students and 402,000 THB for non-Thai students.

FACULTY OF MEDICINE

Preparing medical graduates, with the highest standards of professionalism and ethics, for residencies in specialized areas and producing valuable research to improve people's health and lives.

“ขอให้ถือประโยชน์ส่วนตน เป็นที่สอง
ประโยชน์ของเพื่อนมนุษย์ เป็นกิจที่หนึ่ง
ลาก ทรัพย์ และเกียรติยศ จะตกแก่ท่านเอง
ถ้าท่านทรงธรรมแห่งอาชีพ ไว้ให้บริสุทธิ์”

เบญจมาภรณ์
สมเด็จพระนางเจ้าสิริกิติ์ พระบรมราชินีนาถ พระบรมราชชนนีพันปีหลวง

Admission Requirements

1. Bachelor's Degree in ANY field (or currently a Bachelor's Degree candidate with an expected graduation date within July 31st 2023).
2. TOEFL/IELTS test scores (valid for 2 years) minimum requirements
 - 85 on the TOEFL internet-based test; OR an overall score of 7 on the IELTS
 - The applicants who are in their final year of their current Bachelor's Degree program or have graduated within the past 2 years with a Bachelor's Degree from accredited international programs in Thailand may use the English Proficiency Test results to apply to study in this international program, or the test results obtained during the study for a Bachelor's Degree or the test results obtained after the completion of a Bachelor's Degree.

English Proficiency Exemptions

The applicants who are nationals of one of the following 6 countries: Australia, Canada, the Republic of Ireland, New Zealand, the United Kingdom, and the United States of America AND have earned a Bachelor's Degree taught in English from one of the aforementioned 6 countries, are exempted from taking English proficiency tests by using the corresponding one of the six nationalities

3. MCAT test scores (valid for 2 years)

4. Curriculum Vitae

5. Statement of purpose

6. Two recommendation letters (sent directly to the Faculty)

CU-MEDi is an international Doctor of Medicine (MD) program offered by the Faculty of Medicine at Chulalongkorn University. The program requires at least four years of study for Bachelor's Degree holders.

Graduates of the CU-MEDi program will become qualified physicians with global medical knowledge, innovative ideas, and leadership skills comparable to those obtained from the six-year MDCU program.

In addition to becoming physicians, CU-MEDi graduates will be able to pursue alternative careers in medicine including, but not limited to, physician-scientists, medical researchers, healthcare leaders, or physician-engineers.

FACULTY OF POLITICAL SCIENCE

Recognized as “The Pillar of Thailand’s Political Science”,
the Faculty represents progress, peace, and social responsibility.

PGS

The Bachelor of Arts Program in Politics and Global Studies is an international program offered by the Faculty of Political Science, Chulalongkorn University, in collaboration with the University of Essex in the United Kingdom, and University of Queensland in Australia. Students in this program will be awarded Double Degrees, one from Chulalongkorn University, and another from one of our partner institutions. The program was officially launched in late 2019 for 2020 entry.

PGS is a multidisciplinary and multi-sited educational program designed to prepare young generations to become world committed population and change-makers. Our multidisciplinary approach exposes students to diverse ways of thinking, researching, and understanding of global politics and social complexities. Beyond providing information and skills, PGS focuses on developing inspiration through an enjoyable and personalized learning environment.

The tripartite motto: **Knowledge, Inspiration and Commitment** well reflects our philosophy, aim and approach to education. We hope to build up a cohort of committed leaders ready to design and create their own sustainable future.

Faculty :

Faculty of Political Science

Program :

Politics and Global Studies (PGS)

Degree Offered :

Bachelor of Arts (B.A.)

Academic Calendar System :

Semester

Program Calendar :

First Semester : August - December

Second Semester : January - May

Summer Semester : June - July

Duration of Study : 4 years

Admission Period :

- Submission of application documents : February-March
- Interview : April
- Notification : May
- Enrollment : July
- Classes begin : August

Total Expected Intake : 60

Admission Qualifications

Applicants must have graduated from high school or passed an equivalent high school standard test, or be in their final year of high school (Grade 12 in the US system or year 13 in the British system), with a minimum GPAX of 3.00, or its equivalent levels according to Chulalongkorn University's criteria.

Before applying, students with GED, IGCSEs, IB, or other international qualifications should contact Chulalongkorn University Academic Testing Center (<https://hscs.atc.chula.ac.th>) for Degree Equivalence Certificate.

Admission Evaluation

Only shortlisted candidates will be selected for an interview. The final selection is based on our evaluation on interview session together with above academic performances and communication proficiency.

The interview is scored according to the following:

- Knowledge on international politics and global situations (30 points)
- Analysis and problem solving skills (25 points)
- Leadership and creative thinking (25 points)
- English language communication (20 points)

Fees*

Admission Requirements

Applicants must submit one of the following English proficiency test scores:

1.1 TOEFL (Internet-based) 87 (Writing 21, Listening 19, Reading 19 and speaking 20) or IELTS 6.5 (Each section must score a minimum of 6.0)

1.2 SAT (Evidence-based Reading and Writing) 500 or SAT (Composite with Math) 1200

The official score report of the tests in 1.1 and 1.2. is valid only when the tests were taken no more than two years prior to the application deadline.

FACULTY OF PSYCHOLOGY

An academic institution dedicated to the understanding of
the human psyche and behavior

JIPP

The Joint International Psychology Program (JIPP) is truly an innovative avenue for students to gain a wealth of experience while studying at two prestigious institutions. Offered in conjunction with the University of Queensland (Australia), JIPP is a four-year program that provides students with the rewarding opportunity to live and study abroad. In addition to valuable life experiences, students earn solid knowledge in psychology, accumulated not only from the classroom but also from hands-on experience. The students spend their first two years (4 semesters) at Chulalongkorn University and their next three semesters attending the School of Psychology at the University of Queensland. They will return to Chulalongkorn University for their final semester and complete their dual degrees.

Admission Requirements

- International Baccalaureate Diploma (IB) of 35 **or** The Advanced Placement Program (AP) rank equaling **or** above 78
- IELTS with an overall band score of 6.5 **or** TOEFL with score of 88 (internet-based) **or** CU-TEP with a score of 104 **and** SAT with a score of 1100 (Maths and Evidence-Based Reading and Writing) **or** CU-ATT of 1030 (Maths and Verbal section combined)

 Total Expected Intake : 100

Since 2005, the **Bachelor of Science in Applied Chemistry (BSAC)** program has continued to be modernized for the 21st-century trends and currently offers four majors to best suit students' interest:

- Materials Chemistry
- Industrial Chemistry & Management
- Environmental Chemistry
- Cosmetic Chemistry and Entrepreneurship

This flexible program emphasizes the integration of chemistry knowledge (both theoretical concepts and practical skills) for real-life applications and challenges posed by local/international business needs. In an international and collaborative learning environment, students will gain an insightful understanding of how to maintain a balance between technology, society and human needs. Equipped with specialized knowledge and essential skills for tomorrow's world, BSAC graduates will be ready to contribute to Thailand's development, extending to SEA and the world.

Fees

Fees (Thai Baht)	Thai Student	Non-Thai Student
Regular Semester

Qualification requirement of applicants

Applicants must have completed high school or passed an equivalent high school standard test or be currently in their final year of high school (Grade 12 in the US system or Year 13 in the British system).

- Applicants must submit all of the following three documents in which at least 2 out of 3 score results must meet the requirements
 - Applicants must achieve the prescribed minimum score in any one of the following.

English Proficiency tests:

 - TOEFL (Paper-based) ≥ 550
 - TOEFL (Internet-based) ≥ 79
 - IELTS ≥ 6.0
 - SAT (Evidence-Based Reading and Writing) ≥ 500
 - CU-TEP* ≥ 80
 - DET (Duolingo English Test) ≥ 110
 - Applicants must achieve the prescribed minimum score in any one of the following.

Mathematics tests:

 - CU-AAT** (Maths) ≥ 450
 - SAT (Maths) ≥ 490
 - SAT II (Subject Test) (Maths Level 2) ≥ 600
 - Applicants must achieve the prescribed minimum score in any one of the following.

Science tests:

 - CU-ATS*** (Chemistry) ≥ 380
 - SAT II (Subject Test) (Chemistry) ≥ 560
 - AP Chemistry ≥ 3
 - IB Chemistry ≥ 4
 - AS/A Level Chemistry $\geq C$
 - GED (Science Subject) ≥ 160
 - GPAX**** on Chemistry Subject ≥ 2.75
 - GPAX**** on Science Subject ≥ 2.75
- Applicants who meet only 2 out of the 3 requirements from item 1 are still required to achieve a minimum score in item 2:
 - Applicants must achieve the prescribed minimum score in any one of the following.

English Proficiency tests:

 - TOEFL (Paper-based) ≥ 500
 - TOEFL (Internet-based) ≥ 61
 - IELTS ≥ 5.5
 - SAT (Evidence-Based Reading and Writing) ≥ 450
 - CU-TEP* ≥ 61
 - DET (Duolingo English Test) ≥ 95
 - Applicants must achieve the prescribed minimum score in any one of the following.

Mathematics tests:

 - CU-AAT** (Maths) ≥ 400
 - SAT (Maths) ≥ 440
 - SAT II (Subject Test) (Maths Level 2) ≥ 570
 - Applicants must achieve the prescribed minimum score in any one of the following.

Science tests:

 - CU-ATS*** (Chemistry) ≥ 340
 - SAT II (Subject Test) (Chemistry) ≥ 520
 - AP Chemistry ≥ 2
 - IB Chemistry ≥ 3
 - AS/A Level Chemistry $\geq D$
 - GED (Science Subject) ≥ 145
 - GPAX**** on Chemistry Subject ≥ 2.50
 - GPAX**** on Science Subject ≥ 2.50

The official score reports of the tests in 1.1, 1.2 and 1.3 or 2.1, 2.2 and 2.3 are valid only if the tests were taken no more than two years prior to the application deadline.

BBTech

The International B.Sc. Program in Biotechnology **BBTech** is an interdisciplinary program in the Faculty of Science, Chulalongkorn University, focusing on various areas including animal and plant biotechnology, microbial bio-technology, environmental biotechnology, food biotechnology, bioinformatics, and biotechnology management.

Biotechnology is essential to the advancements in agriculture, health and medicine, food and non-food products, as well as environmental protection. Advancements expand to involve diverse and multidisciplinary sciences, such as recombinant DNA technology, applied immunology, and genomics. Therefore, Thailand must prepare researchers who are well-equipped with and skillful in latest technologies and biotechnological innovations in order to contribute to sustainable development as well as health and economic growth of the country and the world.

Faculty : Faculty of Science

Program : Biotechnology (BBTech)

Degree Offered : Bachelor of Science (B.Sc.)

Academic Calendar System : Semester

Duration of Study : 4 years

Total Expected Intake : 60

Course Calendar :

First Semester : August - December

Second Semester : January - May

Summer Semester : June - July

Admission Period :

Submission of application

documents : December / March

Admission Requirements

Applicants must have completed or be presently enrolled in their final year of high school, or its equivalent levels according to the conditions set by Chulalongkorn University

1. Applicants must submit all of the following 3 required documents and all results must meet the requirements

1.1 Applicants must have graduated or currently be enrolled in their final year of high school (Mattayom 6 in the Thai system), or its equivalent levels according to the criteria set by Chulalongkorn University, with a minimum GPAX of 2.75 and while in high school have taken courses or proficiency tests in Science track.

1.2 Applicants must submit one of the following

• **English proficiency test scores :** One of following

• TOEFL (Paper-based)	≥ 550	• TOEFL (Internet-based)	≥ 79
• IELTS	≥ 6.0	• CU-AAT** (Verbal Section)	≥ 400
• SAT (Evidence-based Reading and Writing)	≥ 450	• CU-TEP*	≥ 80

• **Mathematics test scores :** One of following

• CU-AAT** (Maths Section)	≥ 450	• SAT II (Subject Test) (Maths Level 2)	≥ 500
• SAT (Maths)	≥ 6.0		

2. Applicants must have good behavior and be willing to comply with the rules and codes of Chulalongkorn University.

Fees

Fees (Thai Baht)	Thai Student	Non-Thai Student
Regular Semester		
Tuition Fee	25,500	79,500
Special Fee	70,000	70,000
Total Fees per Semester	95,500	149,500

Fees (Thai Baht)	Thai Student	Non-Thai Student
Summer Semester		
Tuition Fee	6,375	44,630
Special Fee	40,000	40,000
Total Fees	46,375	84,630

CHULALONGKORN SCHOOL OF INTEGRATED INNOVATION

Global Academy for the Future

Would you like to work on
real-life projects
and tackle **real-life** problems?

Would you like to be in charge
of your own curriculum and
choose what to learn?

Would you like to be part of
the international
community
and access global opportunities
and networks?

BAScii

Launched in 2019, the **Bachelor of Arts and Science in Integrated Innovation (BAScii International Program)** is one of the newest international programs in Chulalongkorn University under the faculty-level School of Integrated Innovation (SciI).

As a response to the changes in industry and social needs triggered by the 4th industrial revolution, BAScii offers its students a transdisciplinary curriculum that dissolves the traditional boundaries of conventional disciplines and synthesizes diverse subjects while providing experiences from academia as well as the corporate sector.

Throughout the program, students will gain soft skills required in the 21st century and obtain knowledge in both business and technology cores, while continuously working on their own start-up projects across all four years of the degree. These projects address key challenges within the four areas of specialization offered in the program – Health and Wellbeing, Smart City and Inclusive Community, Sustainable Development and Applied Digital Intelligence.

Fees

Fees (Thai Baht)	Non-Thai Student
Regular Semester	
Tuition Fee	79,500
Special Fee	141,500
Total Fees per Semester	221,000

BAScii is not just a degree, but a multifaceted platform and ecosystem in the context of future-oriented education. It leads towards global sustainability for international talents aiming to foster entrepreneurial capacities of each student and equip them with 21st century skills for lifelong learning. As they become parts of this ecosystem, students will gain access to the best scholars, startup founders, industry internships and global partnerships with top-ranked universities or corporations to support their learning outside the classroom. All BAScii experiences are tailored for developing business and industries of the future with promising international career prospects.

In BAScii students are prepared to become 'Global Citizens' and leaders in the world of technology and innovation. They are developed with the inherent capacity to adapt to the ever changing world to become competitive entrepreneurs and life-long learners, potentially with their businesses or startups already up and running as they are graduated with their university degree.

Join us to start LEARNING by DOING!

Fees (Thai Baht)	Non-Thai Student
Summer Semester	
Tuition Fee	44,630
Special Fee	10,620
Total Fees	55,250

Admission Requirements

- Applicants must be a non-Thai citizen (holding a foreign passport).
- Applicants must complete high school or are currently in the final year of high school or passed an equivalent high school standardized test.
- Applicants must achieve the minimum score of any of the following proficiency tests (scores are valid within two years from the test dates) to meet the requirements. Applicants can submit more than one proficiency test result.

Admission Criteria

• Interview (30% Weight)

If an applicant chooses to submit both parts of SAT (Evidence-Based Reading & Writing and Maths), ACT*, Gaokao (English and Maths), HKDSE (English and Maths), GSAT or Xue Ce*** (English and Maths), the scores must be from the same test (taken on the same day).

• English test (20% Weight) : One of following

• TOEFL (Paper-based)	≥ 550	• CU-TEP**	≥ 100
• TOEFL (Internet-based)	≥ 80	• Duolingo English Test	≥ 105
• IELTS	≥ 6.5	• Gaokao English	≥ 110
• SAT (Evidence-based Reading and Writing)	≥ 500	• HKDSE English	≥ Level 4
• ACT*	≥ 37	• GSAT or Xue Ce***	≥ 12 or TELC "B" Grade

Foreign applicants may be considered for a waiver of English proficiency requirements with sufficient proof and relevant experiences, whose secondary education (high school) took place in an accredited school where English is a principal language of instruction for at least three years prior to this application in a native English-speaking country listed below:

American Samoa - Australia - Bahamas - Barbados - Belize - Botswana - Canada (including Quebec) - Fiji - Gambia - Ghana - Gibraltar - Guyana - Ireland - Jamaica - Kenya - Lesotho - Liberia - New Zealand - Nigeria - Papua New Guinea - Philippines - Samoa - Singapore - Solomon Islands - Tonga - Trinidad & Tobago - United Kingdom - United States of America - Zambia - Zimbabwe

Each case will be reviewed individually, and the School reserves the right to request applicants to further satisfy English proficiency requirements if deemed necessary.

• Maths test (30% Weight) : One of following

• SAT (Maths)	≥ 600	• Online Mathematics Placement Test (OMPT-B)	≥ 65%
• ACT* Maths	≥ 25	• Gaokao Maths	≥ 70
• CU-AAT Maths	≥ 580	• HKDSE Maths	≥ Level 4
• IB Diploma (International Baccalaureat) HL Maths	≥ 5	• GSAT or Xue Ce***	≥ 10
• A-Level Math	≥ Grade B		

• E-Portfolio (20% Weight)

Applicants must submit E-Portfolio which consists of a collection of applicants' work as well as activities. The purpose of this E-Portfolio is for applicants to demonstrate their individual versatility, breadth of experiences, engagements, achievements, and organizational skills. Portfolio can include applicants background, academic and research, projects awards, competitions, internships and more. For future details please check the program website.
