

Global Korea Model United Nations 2024

Collaboration Proposal

Foreword by GKMUN's Secretary General

Amidst the countdown to the final five years of the SDGs 2030, the global crisis appears to be escalating. In our earnest effort to realize the aspirations encapsulated within the Sustainable Development Goals (SDGs) by 2030, we are thrilled to introduce the inaugural Global Korea Model United Nations (GKMUN). Recognizing the imperative of youth involvement and awareness in shaping the trajectory of our world's welfare, GKMUN stands as a beacon of empowerment for emerging leaders.

Through the dynamic platform of Model United Nations (MUN), we underscore the pivotal role of nurturing the next generation of global citizens equipped with the requisite skills and acumen to grapple with the myriad challenges confronting humanity. GKMUN is dedicated to fostering collaboration and catalyzing effective solutions by providing delegates with a forum for simulated diplomatic negotiations and robust debates.

In this epochal juncture of our collective journey towards the SDGs, harnessing the potent force of youth engagement and fostering collaborative partnerships is paramount. It is incumbent upon us to forge alliances and seek support through strategic partnerships and sponsorship initiatives to fortify our endeavors. Hence, we extend this proposition as an invitation to unite in our shared commitment to effect tangible change, acknowledging the indispensable role of initiatives such as GKMUN in galvanizing transformative action.

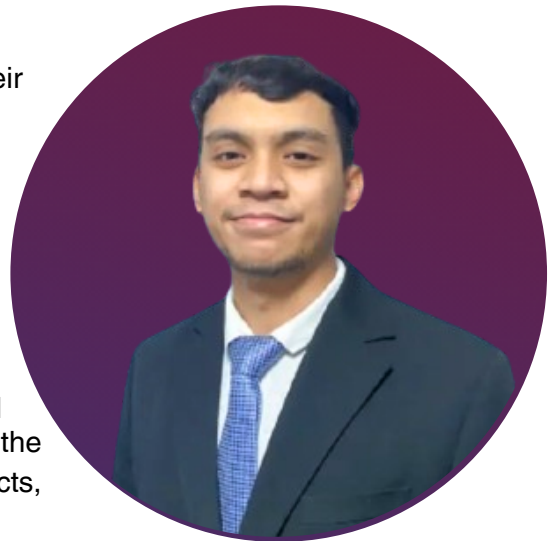

Let us converge, not merely in pursuit of success, but with a steadfast resolve to amplify our impact and advance the noble cause of sustainable development. The opportunity to collaborate and make a lasting imprint on the fulfillment of the SDGs through the Global Korea Model United Nations 2024 is one we eagerly anticipate and wholeheartedly embrace. Join us in this transformative journey, where every partnership forged and every contribution made resonates in the annals of global progress.

Christina F. Mandagi

**Global Korea Model United Nations 2024
Secretary General**

Foreword by Perpika's President

Dear Prospective Partners & Sponsors,
Idealism is a luxury inherent in every student during their academic journey. Throughout this period, youth worldwide possess a freedom of thought that serves to inspire the world. As the Indonesian Student Association in South Korea (Perpika), we strive to empower these young individuals to realize their full potential. In 2024, our mission with the Global Korea Model United Nations (GKMUN) is to cultivate youth capable of addressing pressing global issues. GKMUN aims to convene young future diplomats from across the globe to tackle issues such as international conflicts, climate change, and economic sustainability

GKMUN builds upon our previous initiative, KISAMUN, an online Model United Nations platform officially supported by the UN-Habitat Korean National Committee and the Indonesian Embassy in South Korea (KBRI Seoul). Despite the challenges posed by COVID-19 during KISAMUN, we successfully engaged hundreds of aspiring diplomats in meaningful discourse. Building on this success, we have evolved KISAMUN into GKMUN, offering a more expansive platform and concept. To enhance the MUN experience for participants worldwide, we have assembled a diverse committee team with representation from various nationalities. Additionally, we aim to reintroduce face-to-face interaction in MUN, which has been limited by the pandemic in recent years. Our goal is to elevate the Perpika MUN experience to be more impactful and exclusive for all participants.

Creating such an enriching experience for GKMUN participants requires significant support from partners and sponsors like you. Through this proposal, we extend a humble invitation for you to join us and be a part of this event. With your generous support, we firmly believe we can collectively realize our commitment to creating a better, more sustainable world. Your support also enables youth to take significant steps toward realizing their unlimited potential. Thank you for considering our proposal, and together, let's "go beyond!" with Perpika #NoLimit to forge a brighter future for young people.

Farris Hilmiyazif Elli

***The Indonesian Student Association in Korea
President of 2023/2024***

Introduction

The world is now approaching the final five years of the SDGs 2030. Challenges for partnerships to achieve all the Goals still exist and need to be solved. The call to action for the youth to get involved rings louder than ever. One way of answering the call can be found by organizing and participating in Model United Nations (MUN). Model United Nations (MUN) is a simulated diplomatic forum where students role-play as delegates representing different countries, engaging in discussions and debates to address global issues and propose solutions within the framework of the United Nations.

As a part of the global community, we must respond and take action. Supported by the Educational and Cultural Attache of the Indonesian Embassy in South Korea (KBRI Seoul), The Indonesian Students' Association in Korea (Perpika) is honored to initiate the inaugural edition of the Global Korea Model United Nations (GKMUN). Our aim is to establish a platform that transcends geographical boundaries, encourages fruitful dialogue, and tackles the crucial issues affecting our world. GKMUN strives to impart a meaningful and lasting impact on participants, fostering a sense of responsibility, and in solidarity dedicate our ideas in building a more interconnected and harmonious global community.

Building on the success of KISAMUN 2022, which attracted over 100 participants online, GKMUN 2024 anticipates hosting approximately 200 participants both offline and online on 24 -27 July 2024, in Seoul, South Korea. This conference is open to enthusiastic global youth, especially those with interests in international relations, diplomacy, and sustainable development. Our focus includes Indonesian students in both Indonesia and South Korea, Korean and international students in South Korea, and the general youth around the world. We hope to produce ideas and solutions that can contribute to achieving the 2030 Goals and restore faith in solidarity within the global community.

Core Values

- Promoting international collaboration, cultural exchange, and critical thinking
- Emphasizing inclusivity, diversity, and the importance of youth engagement in addressing global challenges
- Fostering a positive and enriching environment for all participants

Benefits for participant

- Gain valuable skills in diplomacy, negotiation, and public speaking
- Networking opportunities with like-minded individuals
- Cultivate cross-cultural understanding
- Develop a nuanced perspective on global issues
- Enhance leadership skills

Our past event

KISAMUN

KISAMUN

Perpika has a proven track record of organizing a successful Model United Nations conference in 2022. The Korea-Indonesian Student Association Model United Nations (KISAMUN) was an MUN conference hosted by Perpika in collaboration with the Educational and Cultural Attache of the Indonesian Embassy in Seoul (KBRI Seoul). Additionally, it was officially recognized by the Korean National Committee for UN-Habitat that is also a partner of Perpika.

Committee Session 4

Committee Session 5

Committee Session 6

Awarding Session & Closing

Social Night

Day 4 (Tour)

**This is a tentative agenda and items in it might be adjusted later depending on circumstances going forward.*

Theme & Councils

The grand theme of GKMUN 2024 is **"FUTURE FORWARD: RESTORING FAITH IN SOLIDARITY"**. It was chosen and developed from the speech given by the UN Secretary General, H.E. António Guterres for all the MUN conferences that will take place in 2024. He calls for global solidarity for peacebuilding, tackling the climate crisis, and fostering collective efforts to achieve the 2030 Goals. This theme will be streamlined into four selected UN committees in addressing the current global challenges.

United Nations Security Council (UNSC)

will answer the following topics:

The Israeli-Palestinian Conflict (Topic A)

The Israel-Palestinian conflict has been active since 1948 and there seems to be no conclusion in sight. All peace talks in the best of times have made meager results and in the worst of times fail miserably. Recently there has been escalation in the Gaza Strip owned by Palestine and will be the center point of the conflict.

Use of AI in Warfare (Topic B)

The use of Artificial Intelligence (AI) in warfare has been a contested issue, especially since the proliferation of drones in warfare. The reason being is because the use of AI in warfare has been in the gray area of the Geneva Convention and the delegates will be tasked to establish the redline on the use of AI in warfare.

United Nations Human Settlements Programme (UN-Habitat)

will answer the following topics:

Gentrification and the Inequity in Smart Cities (Topic A)

The gentrification process and inequity has been an issue for urban development. Entire subcultures and people have been banished in the name of urban development, especially since the introduction of smart cities. The delegates will be tasked to find a solution in order for UN-Habitat to effectively establish smart cities sustainably while keeping these subcultures in mind.

Sustainability of Planned Cities (Topic B)

The development of planned cities in several cases has done more harm than good for the wellbeing of the environment and the people surrounding the area of the planned cities. The delegates will be tasked to establish a UN standard and guideline for Member States to sustainably develop planned cities.

United Nations Industrial Development Organization (UNIDO)

will answer the following topics:

Streamlining Agri-business Supply Chain (Topic A)

The logistics of agri-business in several cases lag behind urban and rural development. Drought and famine has been a common issue in several parts and areas of the world. The delegates will be tasked to find a solution in streamlining the agri-business supply chain.

Tackling Greenwashing for Effective Decarbonization (Topic B)

Greenwashing is the process where a company may falsely claim that they have established sustainable practices. The delegates will be tasked to find a solution to ensure the accountability of such companies for effective decarbonization.

United Nations Framework Convention on Climate Change (UNFCCC)

will answer the following topics:

Responding to the Global Stocktake (Topic A)

The global stocktake is a mechanism in which the global community monitors and makes a sense of due diligence of their progress towards the Paris Agreement. However, the global stocktake is also a subject towards a transparency framework issue. The delegates will be tasked to establish a more transparent and accountable mechanism to ensure steady progress in order to reach the goals within the Paris Agreement.

Climate Migration (Topic B)

Climate migration is an issue which arises from climate change, climate change has made several areas around the world inhospitable and resulted in climate migration that burdens urban areas. The delegates will be tasked in the best of cases to reverse the effect of climate migration and in the worst of cases ensure a sustainable practice of climate migration.

Community Partnerships

In-person attendance

- a. Special delegation rate (minimum 3 delegates)
- b. One free press access to the conference (side events not included) for non-delegation participant.
- c. Logo displayed on selected social media marketing materials and the media partner section of the conference handbook.
- d. Verbal mention during as GKMUN 2024's community partner.

Virtual attendance

- a. Special delegation rate (minimum 2 delegates)
- b. One free press acces to the online conference (side events not included) for non-delegation participant.
- c. Logo displayed on selected social media marketing materials and the media partner section of the conference handbook
- d. Verbal mention during as GKMUN 2024's community partner.

GKMUN expects the partner’s **full support on disclosure and publication of all related information about the conference**. Particularly, publication materials about delegates registration throughout the pre-conference period.

Delegation Rates

Basic Experience (USD 139 | KRW 149,000 | Rp. 1,599,000) - price/delegate
